Number of Entries

The number of entries during FCC Gliding 2020 in each class is limited:

Club class	- max. 55 competitors
15m class	- max. 30 competitors
Combi class	- max. 35 competitors

Number of competing glider planes in all classes is limited to a maximum of 120 substitutes.

If the number of registered competitors exceeds limited number in all competition classes, the director of competition - Ing. Jozef Horňák, will take his right of organizer for selection and compilation of the start list. His decision will be influenced by these factors: entry fee paid, the number of previous participations in FCC Gliding, membership in the national team, the number of hours flown, or even participation of representatives of "new countries".

Competing Pilots

Pilot competing in FCC Gliding 2020 must be a citizen or resident of one of the NACs countries and must satisfy the conditions of the FAI Sporting Code, General Section 3.7 on citizenship and representation and shall fulfil these requirements:

Competition Classes

FCC Gliding 2020 will be held in the following classes as described in the main body of Section 3 of the FAI Sporting Code, Chapter 5:

- **Club Class**
- **15 m class**
- **Combi class**

If any class does not have at least 5 participants on the first competition day, the pilots will be moved and scored together with other suitable class.

Contest Number

The rules concerning the visibility of contest numbers will be strictly observed. If two contest numbers are identical or easily confused (e.g. "India, India" and "one, one") the competitors will be asked to change it based on their agreement.

Weight Limits

- Club Class – Maximum take-off mass must not exceed the maximum certified mass of the sailplane without water ballast and is limited by the lower value of:
 1. maximum allowable weight of parts not generating lift plus weight of parts that generate lift (without any kind of a burden in the wings), or
 2. maximum allowed take-off weight without water under the technical documentation (TCDS)
- Standard Class – Maximum take-off mass of the sailplane will not exceed 525 kg or the maximum certified take-off mass.
- 15m Class -Maximum take-off mass of the sailplane will not exceed 570 kg or the maximum certified take-off mass.
- 18 m Class – Maximum take-off mass of the sailplane will not exceed 750 kg or the maximum certified take-off mass.
- Open Class – Maximum take-off mass of the sailplane will not exceed 850 kg or the maximum certified take-off mass.

Competition Area and Contest procedures

The competition area is still under negotiation and we will let you know more information in the near future, the latest at the opening briefing . Our aim is to obtain the area with access to Hungarian, Czech and Polish airspace. The maximum altitude will be generally 8000 ft and 9000 ft over the mountains. Only in few areas, especially under some TMAs, there will be lower altitude limit. Max altitude in feet and meters will be given for all airspaces corrected according to QNH of the day and will be mentioned on the task sheet together with the other daily task data.
